Instructions to the Authors

General Information

Submissions to Acta zoologica bulgarica can be works with subject matter dealing with the basic fields of zoology, ecology of aquatic and land animals, parasitology, biology of development, population genetics, animal evolution, and new methodological contributions in zoology. Manuscripts are accepted on the assumption that they have not been published elsewhere nor have been submitted for publication in any other journal. Manuscripts must conform strictly with the instructions to authors and will be sent to the editor. Papers with systematic content should follow the International Code of Zoological Nomenclature. Incoming manuscripts are initially judged by the editor. If the manuscript is acceptable in principle, it will be forwarded to referees for evaluation. After final edition and approval by the editorial board, the manuscript will be accepted for publication. The editor reserves the right to make editorial changes. Authors agree, after the manuscript’s acceptance, with the transfer of copyright to publisher. Manuscripts, proofs, reviews, etc., concerning editorial matters should be addressed to the Editorial Office.

The text citations are as follows: Brumfit, Zinkov (1941) or (Brumfit 1941: 35) or (Brumfit 1941: 1941 and Ivanov 1996, Petkov 1956) or Brumfit et al. (1949) for three authors or more. The references should start on a separate page. They should be arranged alphabetically by the author’s family name(s), and chronologically. In case of papers written in other than Latin letters, if there is an English (or German, or French) title in the summary, it may be used. This should be noted in round brackets at the end of the paragraph, for instance: (In Bulgarian, English summary).
